

How Accqrte Works?

Flexible. Intelligent. Built for real-world complexity.

Accqrte is a cloud-native global e-invoicing platform built for clean integration, intelligent automation, and operational flexibility.

1. Deployment and architecture

- Cloud (SaaS), on-premises, or hybrid deployment
- Designed for data sovereignty and governance requirements

2. Integration without disruption

- Connects to any ERP, POS, or legacy system
- Supports both online and offline integration models
- Specialized expertise in legacy and custom application integration

3. Agentic AI at the core

- AI-driven invoice reconciliation and exception handling
- Intelligent workflow management and routing
- Proactive warnings, error detection, and root-cause analysis

4. Compliance networks and formats

- Peppol (certified AP& SMP)
- KSA, Oman, UAE, Belgium, Germany, Mauritius, Malaysia
- XRechnung, ZUGFeRD, UBL 2.1, PDF A3 with XML

Certified by **Peppol** and recognized by **tax authorities across multiple jurisdictions, Accqrte is a single point of compliance for e-invoicing worldwide.**

Ready to simplify compliance and scale globally?

Let's build the future of e-invoicing together

Let's Connect
