

## **E-Invoicing Exchange Summit in Dubai**

### **When & Where**

November 25 to 27, 2026  
Dubai, United Arab Emirates

### **About the Event**

The Middle East is entering a new era of mandatory e-invoicing frameworks, digital VAT reporting, and real-time tax controls. As governments across the region accelerate regulatory reform, businesses must prepare for tighter compliance requirements, new technology models, and increased cross-border interoperability.

Join the **E-Invoicing Exchange Summit in Dubai** to connect with tax authorities, enterprises, and technology leaders. Gain practical insights into upcoming mandates, AI-driven compliance, PEPPOL-style frameworks, and the future of digital tax administration in the Middle East and beyond.

This event is designed for tax, finance, compliance, and digital transformation leaders operating in the Middle East and globally.

### **Program Highlights**

The summit begins with a pre-conference day featuring an in-depth workshop, followed by an Icebreaker Reception in the early evening - an excellent opportunity to connect with peers and speakers in an informal setting.

The main conference includes expert presentations, case studies, and interactive roundtable discussions, as well as a Networking Dinner on Tuesday evening, covering topics such as:

- + **E-Invoicing and Tax Reporting:** Driving digital transformation across the Middle East
- + **Regulatory Developments:** What new mandates mean for businesses and governments
- + **AI in Tax and Compliance:** Improving accuracy, automation, and proactive controls
- + **Trust Services & AI-Based Automation:** Building scalable and secure compliance models
- + **From Spend to Compliance:** Ensuring seamless e-invoicing and VAT control across processes
- + **Beyond Compliance:** The evolving future of tax reporting and data-driven oversight
- + **Global Connections:** E-Invoicing in an increasingly borderless economy

### **Attending**

Registration fees range from EUR 495.00 to EUR 2495.00. Special rates are available for public-sector participants and organizations that issue a high volume of invoices. These tickets are limited and granted upon request and review.
